Re: Notice of Overdue Annual Well Operation Report
Inventory No. Well No. Location - Osage County, Oklahoma
OS6180 SWD 1-1 SW/4, Sec. 1, T25N, R 3E

Dear Mr. Seigel:

To date, we have not received the required annual operation report for the referenced well for the period July 2009 through June 2010. Please submit the required report to this office within 15 days. The report must include the information on the enclosed form. In addition, the underground injection control permit for the well requires you to measure the static fluid level in the well after a 24-hour shut in period annually. The annual report must include the results of that measurement.

The Safe Drinking Water Act authorizes the Environmental Protection Agency (EPA) to require annual reports. Under the Act, the EPA can issue orders or administrative penalties for failure to submit reports. To avoid this type of enforcement action, please submit the completed annual report, within 15 days, as requested.

If you have any questions or if you already submitted the required report, please contact Ronald Van Wyk at 214-665-6459.

Sincerely yours

Willie Lane, Jr.
Chief
Water Resources Section

Andy Seigel
10/12/10. Told
him he sent
wrong report. Also
need static
fluid level.
